## Business Partnership

### Getting started

Are you interested in sharing the heart of what Set Free does with those in your organization? Getting started is easy—one of our staff members will take one hour to meet with your leadership team to discuss the programs we offer, the best fit for your team and your passions, and identify your team's own Business Ambassador. We'll also set up a time for a brief presentation to your team to share about Set Free's mission to provide restoration and redemption to those we serve.

We'll share an example of the power of a lot of people, doing a little thing to make a big impact.

### Follow-up & launch

After our initial meeting with leadership, we'll then follow up with you and your leadership to decide the impact your team wants to have over the course of each year. We'll work with you to determine the per paycheck deduction that will allow your staff to make a huge impact.

#### **Example Commitment: 1 well**

##### **Based on 24 pay periods:**

- **15 employees = \$6.94/paycheck**
- **20 employees = \$5.20/paycheck**
- **30 employees = \$3.47/paycheck**

We'll help create a business goal designed especially for your company and your staff, and everyone will have the opportunity to opt-in to participate in your goal. With most giving levels less than the price of a lunch out, it's a small commitment that makes a big impact. We'll then provide customized collateral that you can have permanently on location, promoting your business's involvement in changing lives and sharing your progress toward reaching your goals as a team.

For more information or to schedule a meeting, contact Sarah Kelley at [sarah@setfreealliance.org](mailto:sarah@setfreealliance.org) or call (864) 469-9500.

## **Drill a Well**

**Total: \$5,000**

### **Clean Water Changes Everything:**

Water isn't just a part of life. For the people Set Free serves, water is life. Without access to reliable, clean water – human beings simply can't survive. So, we're on a mission to bring fresh water to every man, woman, and child. But our work doesn't stop there. We go far beyond the water well to reach the village as a whole through improved education, job opportunities, improved health, and equality.

Our wells are built to last. Our wells are drilled deep into the aquifer, sometimes drilling through deep rock, to ensure clean water will continue to flow through both rainy and dry seasons for decades to come. \$5,000 will fund all the costs associated with drilling a new well including the drill crew, all materials, and maintenance. This well will serve 500-1,500 depending on the size of the village.

## **Support the Rescued Children**

**Total: \$7,200**

### **Rescuing Children from Slavery**

Despite the fact that slavery is illegal in India, it does not operate in the shadows. Our partner network of over 8,000 pastors are regularly tipped off to the locations where children are being held in slavery. Some of these locations include quarries, brick factories, brothels, medical testing facilities, and even child sacrifice situations.

When they come into our care, rescued children are just beginning to recover and find freedom. Most are malnourished, sexually abused, and scared, so we start by meeting their immediate needs like food and medical attention. Indian pastors counsel the children and help them cope and heal from the trauma they've been through. Some of the children are housed in our main campus while others are housed in village churches where partner pastors, counselors, and volunteers live amongst them, dedicating their lives to the healing and growth of these children. \$6,960 will fully support 10 children for an entire year.

## **General**

### **Where Most Needed**

If your business chooses to give generally, your contributions will go towards what area of our work is in the most need at that time. We will keep you up to date on where your contributions are going and the impact they're making. Although your contributions will not be reaching one specific goal with general giving, you will be meeting constant needs in all aspects of our ministry! The areas of impact you may fund include clean water, rescuing and caring for children rescued from slavery, hosting medical clinics, and planting churches.
